6a. Project Update

1. We are going to start another in-house project in Cornersville, next month. We will replace a 4- inch sewer line on Valley View Road with a new 6-inch PVC line. This line is about 980 feet long and will require 2 new manholes. This will improve the sewer flow through downtown Cornersville. The manholes and pipes are on site at our warehouse. Bad weather has kept us from starting this project.
2. We are planning and designing a new water main to run along the east side of Cornersville Road, across the street from Fairview market. The old ductile iron pipe is very deep in the ground and has had three line-breaks in the last two years. The last time it failed it had three fist-sized holes in it. We are still in the planning stages.

6c. Resolution – to accept TDEC withdrawal permit for 6 MGD – The motion was made by Bill Marsh and Seconded by Joe Harris to accept the withdrawal permit from TDEC for 6 MGD. Motion passed.
Voice vote - 3 ayes

Meeting adjourned at 12: 20

Chairman Bill Marsh

Joe Harris
