Pretreatment

Baron Was sampled 3 times and inspected.

Tours/Visits/Inspections

Item 6. Other Business

6a. Project Update

1. We are beginning a project to replace 3,000 feet of the 2-inch galvanized water line on Belfast-Farmington Road.

This line has given us many breaks in the past.

We will install the new line prior to retiring the existing line. Materials are being ordered, and this will be a long -term job done by in-house labor, over the next 6 months. Although we are replacing a 60-year-old galvanized 2.25-inch line with a new 4-inch PVC line which will be much better, the state is asking for many calculations and drawings. We hope to have state approval within the next two months.

Miscellaneous

The Pilot Trailer has arrived at the water plant. Trail runs for our system will be conducted over the next two months.

Meeting adjourned at 12:13

Chairman Bill Marsh

Secretary Joe Harris
